BELT CONVEYOR

Belt conveyors from Biomass Engineering & Equipment are the premier choice for a horizontal or low-angle conveyance system. Built without catch points, our belt conveyors will transport your bulk materials without snags that slow production. They're safe and make for easier clean up.

LESS MESS

Rollers only used in tail section, so dust collects in one spot

NO SNAGS

Seamless tray:
Sections welded together
and ground smooth

SAFE OPERATION

Powered by direct drive
No pulleys
No idler rollers
