Trailer Loading

Eliminate Waste. Eliminate Worries.

\$49,000 FOB*

Load open-top trailers and truck beds for less capital costs and less mess than a truck bin.

- Drops material directly into trailers or beds
- Drive-through convenience
- Full, even load from front to back
- Eliminates need for loud, inefficient fans
- Requires no air permits to operate
- Creates safer environment for loading material
- Can be easily integrated into a chipping line or implemented in a self-contained process

Design

- Dust-tight, conveyor-based system
- Load times as fast as 20 min. with 48" wide SMART conveyor
- Modular design is easily expanded

*Offer includes 18" S-Series loading conveyor. Conveyor leading to the station and mobile trailer unit not included.
