Trailer Loading Station

Eliminate waste. Eliminate worries.

Load open-top trailers and truck beds for less capital costs and less mess than a truck bin.

Features

- Drops material directly into trailers or beds
- Drive-through convenience
- Full, even load from front to back
- Eliminates need for loud, inefficient fans
- Requires no air permits to operate
- Creates safer environment for loading material
- Can be easily integrated into a chipping line or implemented in a self-contained process

Design

- Dust-tight, conveyor-based system
- Load times as fast as 20 minutes with 48" S-Series SMART Conveyor™
- Modular design is easily expanded
